

AURA, designed by Paolo Piva

Aura is inextricably linked to Wittmann. This compact armchair was given a new lease of life followed by a redesign completed in 1983 in partnership with Paolo Piva. An integral part of the collection for over two decades now, Aura is a true timeless classic, and the perfect complement to any office or home setting. The piece's qualities also come to the fore when it is presented as part of a wider furnishing group. A sofa in three different sizes and a matching footstool are available. All models come in a choice of fixed or removable covers.
